1. PRODUCT AND COMPANY IDENTIFICATION

Product name: CORAFOAM® PUR FOAM
CAS number: Not applicable
Product type and use: Rigid expanded polyurethane foam
Company: DUNA-USA Inc.
4210 FM 1405 Baytown, TX, 77523, USA
1-281-383-3862 info-dunausa@dunagroup.com

In case of emergency call: CHEMTREC 1-800-424-9300 (24 HOURS DAY, 7 DAYS A WEEK)

2. HAZARDS IDENTIFICATION

Physical state: Solid
Appearance: Rigid foam
OSHA/HCS status: This product is considered as NOT hazardous under OSHA Hazard Communication Standard (29 CFR 1910.1200)
Emergency overview: Low hazard for usual industrial or commercial handling.
Potential health effects:
- Eyes: Dust may irritate the eyes.
- Skin: Nonirritating. May cause irritation only through mechanical abrasion.
- Inhalation: Dust may irritate the respiratory system.
- Ingestion: May cause discomfort if swallowed. However, ingestion is not likely to be a primary route of occupational exposure.

Target organs:
- Inhalation
- Skin
- Eye

Chronic effects: Frequent inhalation of dust over a long period of time increases the risk of developing lung diseases.

Signs and symptoms: May cause eye irritation. Itching, redness, burning of skin.

Potential environmental effects: The product is not classified as environmentally hazardous.

4. FIRST AID MEASURES

Eye contact
Dust in the eyes: Flush thoroughly with water for at least 15 minutes. Get medical attention if any discomfort continues.

Skin contact
Contact with dust: Essentially nonirritating to skin. Wash with soap and water if mechanical injury occurs.

Inhalation
If symptoms develop, move to fresh air. Get medical attention if discomfort develops or persists.

Ingestion
Do not induce vomiting. Get medical attention immediately.

5. FIRE-FIGHTING MEASURES

Flammable properties
Not flammable by OSHA criteria

Extinguishing media
Suitable extinguishing media
No specific measures are required as this product is a fire extinguishing medium.

Protection of firefighters
Specific hazards arising from the chemical
Not a fire hazard.

Fire fighting instructions
Keep people away. Isolate fire and deny unnecessary entry. Soak thoroughly with water to cool and prevent re-ignition. Cool surroundings with water to localize fire zone. Hand held dry chemical or carbon dioxide extinguisher may be used for small fires.

Fire fighting equipment
Wear positive-pressure self contained breathing apparatus (SCBA) and protective fire fighting clothing (includes fire fighting helmet, coat, trousers, boots, and gloves). If protective equipment is not available or not used, fight fire from a protected location or safe distance.

Specific methods
Not applicable

Hazardous combustion products
Carbon monoxide. Nitrogen oxides.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions
No special precautions are necessary beyond normal good hygiene practices. See Section 8 of the MSDS for additional personal protection advice when handling this product.

Environmental precautions
No specific precautions.

Methods for cleaning up
For waste disposal, see Section 13 of the MSDS.
7. HANDLING AND STORAGE

Handling
Use work methods which minimize dust production. Use only in well-ventilated areas. Wear appropriate personal protective equipment. Wash hands after handling. Observe good industrial hygiene practices. Refer to "EXPOSURE CONTROLS AND PERSONAL PROTECTION", Section 8 of the MSDS. No smoking, open flames or sources of ignition in handling and storage area. Good housekeeping and controlling of dusts are necessary for safe handling of product.

Storage
Store away from incompatible materials. Minimize sources of ignition, such as static build-up, heat, spark or flame. During shipment, storage, installation and use, this material should not be exposed to flame or other ignition sources. Read and follow manufacturer's recommendations.

8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

Occupational exposure limits
US. ACGIH Threshold Limit Values
   None
Canada. Alberta OELs (Occupational Health & Safety Code, Schedule 1, Table 2)
   None
Canada. British Columbia OELs. (Occupational Exposure Limits for Chemical Substances, Occupational Health and Safety Regulation 296/97, as amended)
   None
Canada. Ontario OELs. (Ministry of Labor - Control of Exposure to Biological or Chemical Agents)
   None
Canada. Quebec OELS. (Ministry of Labor - Regulation Respecting the Quality of the Work Environment)
   None

Engineering controls
Provide sufficient ventilation for operations causing dust formation. Observe occupational exposure limits and minimize the risk of exposure.

Personal protective equipment

   Eye/face protection
      No special precautions.
   Skin protection
      Gloves, for handling rough edges.
   Respiratory protection
      When engineering controls are not sufficient to lower exposure levels below the applicable exposure limit, use a NIOSH approved respirator for dusts.

General hygiene considerations
Handle in accordance with good industrial hygiene and safety practice. Routinely wash work clothing and protective equipment to remove contaminants. Observe any medical surveillance requirements.
Ingestion

No precautions necessary due to the physical properties of the material.

Engineering Controls Ventilation

Provide general and/or local exhaust ventilation to control airborne levels below the exposure guidelines.

9. PHYSICAL AND CHEMICAL PROPERTIES

- **Appearance**: Rigid foam
- **Physical state**: Solid
- **Odor**: Odorless
- **Odor threshold**: Not available
- **Form**: Foam
- **pH**: Not available
- **Flash point**: Closed cup: > 300°C (> 572°F)
- **Auto-ignition temperature**: > 400°C (> 752°F)
- **Solubility in water**: Insoluble

10. STABILITY AND REACTIVITY

- **Chemical stability**: Thermally stable at typical use temperatures
- **Conditions to avoid**: Avoid temperatures above 260°C (500°F), UV rays may cause discoloration.
- **Incompatibility materials**: Strong acids, strong alkalies and oxidizing agents
- **Hazardous polymerization**: Will not occur
- **Thermal decomposition**: Decomposition products depend upon temperature, air supply and the presence of other materials. Toxic gases may be released during decomposition.

11. TOXICOLOGICAL INFORMATION

- **Toxicological data**
  - **Acute effects**: Under normal conditions of intended use, this material does not pose a risk to health.
  - **Local effects**: Exposure to particles from cutting operations may cause mechanical irritation of eyes.
  - **Repeated dose toxicity**: Repeated exposures to dusts of this material are not anticipated to result in systemic toxicity or permanent lung injury; however, excessive exposures may cause less severe respiratory effects.
12. ECOLOGICAL INFORMATION

Ecotoxicity  The product is not classified as environmentally hazardous. Not expected to be acutely toxic to aquatic organisms.

Persistence and degradability  The product is not biodegradable. Surface photodegradation is expected with exposure to sunlight. No appreciable biodegradation is expected.

Mobility in environmental media  The product is insoluble in water. No bioconcentration is expected because of the relatively high molecular weight (MW greater than 1000). In the terrestrial environment, material is expected to remain in the soil. In the aquatic environment, material is expected to float.

13. DISPOSAL CONSIDERATIONS

Disposal instructions:  Disposal recommendations are based on material as supplied. Disposal must be in accordance with current applicable laws and regulations, and material characteristics at time of disposal.

14. TRANSPORT INFORMATION

DOT, TDG, IMDG, IATA-ICAO  Not regulated.

15. REGULATORY INFORMATION

US federal regulations

CERCLA (Superfund) reportable quantity (lbs) (40 CFR 302.4): Not regulated
Superfund Amendments and Reauthorization Act of 1986 (SARA)
   Hazard categories
   Immediate Hazard  No
   Delayed Hazard    No
   Fire Hazard       No
   Pressure Hazard   No
   Reactivity Hazard No

Section 302 extremely hazardous substance (40 CRF 355, Appendix A): No
Section 311/312 (40 CFR 370): No
Drug Enforcement Administration (DEA) (21 CFR 1308.11-15): Not controlled

WHMIS status  Non-controlled
Inventory and regulatory status
This product does not contain chemicals at levels which require reporting under this statute

California Proposition 65 (Safe Drinking Water and Toxic Enforcement Act of 1986)
This product contains no listed substances known to the State of California to cause cancer, birth defects or other reproductive harm, at levels which would require a warning under the statute.
